

Linux and Operating System

practical -1

1. Create a 5 Directories.(Any name)

```
astha@cdac:~$ mkdir muskan
astha@cdac:~$ mkdir riya
astha@cdac:~$ mkdir shivani
astha@cdac:~$ mkdir khushbu
astha@cdac:~$ mkdir mausam
astha@cdac:~$ ls
Desktop    Downloads  khushbu    Music      nayifile   Public     shivani    Templates
Documents  file.txt   mausam     muskan     Pictures    riya       snap       Videos
astha@cdac:~$
```

2. Create a 5 files, 2 files must be text contains.

```
astha@cdac:~$ touch astha1.txt
astha@cdac:~$ cat>astha2.txt
this is second file created by using cat command.

astha@cdac:~$ touch file3.c
astha@cdac:~$ vim file4.txt
astha@cdac:~$ cat>file5.py
this is python file
astha@cdac:~$ ls
astha1.txt  Desktop    Downloads  file4.txt  file.txt   mausam    muskan     Pictures    riya    snap    Videos
astha2.txt  Documents  file3.c    file5.py   khushbu    Music      nayifile   Public     shivani  Templates
astha@cdac:~$
```

3. Show above 2 files text data. Remove above 5 Directories forcefully.

```
astha@cdac:~$ ls
astha1.txt  Desktop    Downloads  file4.txt  file.txt   mausam    muskan     Pictures    riya    snap    Videos
astha2.txt  Documents  file3.c    file5.py   khushbu    Music      nayifile   Public     shivani  Templates
astha@cdac:~$ cat file3.c
astha@cdac:~$ cat file5.py
this is python file
astha@cdac:~$ cat astha2.txt
this is second file created by using cat command.
```

```
astha@cdac:~$
```

```
astha@cdac:~$ ls
astha1.txt  Desktop    Downloads  file4.txt  file.txt   mausam    muskan     Pictures    riya    snap    Videos
astha2.txt  Documents  file3.c    file5.py   khushbu    Music      nayifile   Public     shivani  Templates
astha@cdac:~$ cat file3.c
astha@cdac:~$ cat file5.py
this is python file
astha@cdac:~$ cat astha2.txt
this is second file created by using cat command.

astha@cdac:~$ rm -rf muskan/
astha@cdac:~$ rm -rf mausam/
astha@cdac:~$ rm -rf riya/
astha@cdac:~$ rm -rf shivani/
astha@cdac:~$ rm -rf khushbu/
astha@cdac:~$ ls
astha1.txt  Desktop    Downloads  file4.txt  file.txt   nayifile   Public     Templates
astha2.txt  Documents  file3.c    file5.py   Music      Pictures    snap       Videos
astha@cdac:~$
```

4. Remove above 5 files.

```
astha@cdac:~$ ls
astha1.txt  Desktop  Downloads  file4.txt  file.txt  nayifile  Public  Templates
astha2.txt  Documents file3.c    file5.py   Music     Pictures  snap    Videos
astha@cdac:~$ rm astha1.txt
astha@cdac:~$ rm astha12.txt
rm: cannot remove 'astha12.txt': No such file or directory
astha@cdac:~$ rm astha2.txt
astha@cdac:~$ rm file3.c
astha@cdac:~$ rm file4.txt
astha@cdac:~$ rm file5.py
astha@cdac:~$ ls
Desktop  Documents  Downloads  file.txt  Music  nayifile  Pictures  Public  snap  Templates  Videos
astha@cdac:~$
```
